Paceday. January 24, 1871. Legislative Proceedings. The session yesterday was not as long as usual; but several very important estions came up for consideration,and were treated satisfactorily to all parties concerned. The proposal to grant a subsidy for a semi-weekly steamer between Victoria and Puget Sound, Was passed quanimously, but with the understanding that it should go up to the Excentive for re-consideration. It has already been before the Governor in Council who concluded not to recommend a subsidy for that purpose to the Council, considering all the circumstances,-and particularly the demand on the public purse for morepressing wants. We are inclined to think that their conclusion was judicious, especially as but a few months—the first of July probably must elapse in the natural course of events before the Dominion will be required to provide for that service. Hence the resolution sent up vesterday is very likely to result in nothing but ing alive a very desirable project till the bostal service shall have been transferred to the Dominion Government. The next question that respecting the Graving Dock, met with the unanimous concurrence of the House; and the Governor has been asked to press the matter upon the Canadian Government in such a way as to make the assurance of getting a Graving Dock through Confederation an absolute certainty. For our own part, now that the question has been aired, we cannot help concluding that the Ottawa Cabinet will entertain the renewed application of our Legislatate to ensure the construction of the Dock with the object of making it an absolute certainty. For if the amount to nothing more nor less than a mere pretence, to keep faith with this country. The Dock we hold has to be built by the Dominion Government as a measure of defence, -inasmuch as without such a means to repair large vessels of war, the defence of the Pacific Coast would be very seriously impaired. As the Dominion has taken on itself the defence of the country within its juris-diction, we cannot believe that they will neglect so important an element for our defence. Hence when tenders shall have been called for the construction of the Dock, we naturally and without any distrust expect that the Dominion Government will see that adequate provision Road Tolls on flour inspired the member from Lilloost to make several speeches, which were endorsed so far as they affected the merits of the question by the member for Yale. This vezata questio, however. we consider settled. The Council was ansnimously in favor of the abolition of all tolls on lone-made flour,-and a Bill was ordered to amend the Roads

Happily better days are in store for us.

The improved feeling connected with the
near approach of Confederation warrants as in expecting the Executive to meet the unanimous wish of the country in this particular, and particularly the pressing solicitations of the farmers in Yale and Lillooet Districts. Farming is the only permanently productive in-dustry in the Colony. All others are subject to spasmodic efforts and very serious Auctuations. Hence to ignore the reasorable demands of a class that are the very foundation of our future prosperity—the only class whose industry tends to keep the produce of our gold mines in the country to enrich the state-would be an error in administration that could not be patiently overlooked, THE PROCLIVITIES FOR SENSATION .- It is as-

first time, and how such an anomaly as

exempting home-grown wheat and ima

posing a toll on the flour made from the same wheat could be allowed to exist for

the last five years we cannot well imagine.

Nothing but an irresponsible govern-

Colony. PUGET SOUND MAIL SERVICE.

Mr. Nathan moved that a sufficient sum be placed on the Estimates for the purpose of this city and ports on Puget Sound. If such a service were secured we should likely derive many advantages therefrom It would San Francisco mail service was totally unsatisfactory; nearly all the mails came by cargoes were enabled to visit this port to ascertain what were the facilities for obtaining supplies and cargoes. Another advantage was that it would tend to keep up opposition, reduce the price of fares, and in the spring add to our population. It required only a small amount, and would last only a few months, in anticipation of Confederation with the Dominion Government, and he hoped every member of this Council would support him in the motion.

Mr. DeCosmos seconding said a great many so'ntions were sent up to His Exceller c .. having in view certain objects-under the circumstances-to do the best that can be done with them, and he (Mr. DeCosmos) had much pleasure in supporting the present mo-tion on similar grounds. He held that the Executive was more competent to deal with each matters, having generally more information in respect of such questions.

Mr. Humphreys supported the motion. It was perfectly natural and proper to place the ter before the Executive. The object of the motion would tend to benefit the Colony, and every such like matter should be sent to His Excellency.

Mr. Bunster briefly referred to Puget Sound

steamboat opposition. He hoped no hon. member would oppose the motion. Mr. Nelson would give a more bearty support to the motion, if a former question-communication between this city and New West-

pinster-had been more liberally dealt with. Hon. Mr. Trutch said the subject had already engoged the consideration of the Executive Council, and a conclusion had been arriven at by His Excellency in Council-he thought it but right to state that much. He had no objection that the motion should go foward for consideration, but he though the same conclusion would be arrived at; he could give no hope of any other decision.

The motion passed unanimously. THE GRAVING DOCK.

Mr. Nathan referred to some days since. when he brought up the question of an additional guarantee to the building of a Graving Dock at Esquimalt, and when his resolution was lost on account of an informality, because it was thought a matter to be dealt with after Confederation. He begged to offer the present resolution, hoping that no member having the interest of the Colony at heart speciful Address be forwarded to the Gov Graving Dock, named in clause 12 of the pro- from Road Toils." osed Terms of Confederation, be increased to 25 years, if found necessary to insure the mmediate construction of the Dock." Mr. Nathan believed the resolution would

have more force if sent from the House. Hon. Dr. Carrall thought with Mr. DeCosmos, they had nothing to do with the Dominion of Canada any more than they had to do with Victoria, Australia. He thought the resolution a mistake. He would move an amendment, "That an humble address be presented to His Excellency the Governor, respectfully representing that doubts exist as to the sufficiency of the guarantee provided in section 12 in the Terms of Confederation offered by the Dominion of Canada and accepted by this Council, to insure the construction of a Graving Dock at Esquimalt; and that this Council, therefore, solicit his Excellency the Governor to move the Government of the Dominion to extend that Guarantee for such further period, or afford such further inducements to capitalists as shall secure the speedy completion of a work of such vital importance to the general inter-ests, not only of British Columbia, but of the

Dominion. Mr. DeCosmos seconded it. Mr. Neison objected, if it were intend d as would support it.

reason to believe it was seriously considered by His Excellency, but for what reason it had not become law, he did not know. He believed that the matter should long ago have been attended to. At a public meeting, lately held at Lillooet, resolutions were passed at length.

The Colony baving been compelled to borrow the money for the construction of roads, at an annual expense for interest, sinking fund, &c., of \$220,000 securing a bi-weekly mail service between and for maintaining them-is it a bardship to call upon the settlers in the district to assist in repairing the roads? He knew tolls were objectionable in every place-they exist for lend assistance to emigration. The present the purpose pointed out. He would like to ee the roads free throughout the Colony and he boped that after Confederation, that Puget Sound. He asked for the subside, result would be attained. He argued that also, because captains of vessels seeking every pound of flour that passed over the road did as much injury to the road as every pound of sugar, and should be made to pay just as much. He did not see why flour should be exempt, if wheat were; because wheat is free, it does not follow that flour should be; but he would not oppose the reso-1 ition going forward to the Governor. It was strange that the odium should rest upon him. If it be, let it be, but he would point out that the object could only be attained by an Act of the Legislature. He suggested that the mothat nothing had been advanced to alter his were given on much the same terms as they

were given here, to-day.

Mr. Skinner said the farmers on the Thomp son, and other districts, suffered equally with the Clinton-Lillooet district farmers. He would support the resolution.

Mr. Bunster-a flour manufacturer, supported the resolution. Hon. Dr. helmcken would not oppose the resolution. He presumed it had already passed. He believed that flour should be taxed, for the simple reason of keeping up the roads, as stated. Few districts outside of Vancouver Island have done anything towards supporting the roads. There is a time coming, when the question will be of more importance. If, in future, when supplying the mines, this cent a pound would be against he farmers on the road to the mines, it was i that case, objectionable. Mr. Humphreys replied to the remarks o the hon. Chief Commissioner. He said the Chief Commissioner did not appear to under stand the subject. Mr. Humphreys also stated that at the period in which the tax was im-posed, the merchants of Victoria were ma-king an enormous profit, but to compel farmmeasure a short time since, he did not think more than they can realize on their produce During the remarks of Mr. Humphreys, an Mr. DeCosmos would second the principle attempt at applause was made in the gallery,

The motion as amended was carried, 8 to 3. Messrs. Trutch, Hamley, and Pemberton opposing.

The House resolved itself into Committee on the Supply Bill, Mr. Alston in the Chair. A Bill to appropriate, out of the General Revenue of the Colony, the sum of \$347,535, for the contingent service of the year, was passed without discussion.

The Committee rose, and reported the Bill complete, and the third reading was fixed for o-morrow, first on the orders of the day. LANE & KURTZ MINING BILL. Dr. Carrall moved the second reading of

An objection was, that the Bill stands unlimited as to time; it cannot be limited in anticipation of the Union of the Colony with the Dominion-which as regards tolls, does and will remain in the hands of the local Legislature. As to the merits of the application, notwithstanding the remarks of the mover, it is unfair to the existing foundry in this city, that a premium be given to foreign machinery. Directions for Using Robinson's Magic Sons for doing a Large Family Washing in Two Hours, of Five or Six Dozen Preces.

Hours, of Five or Six Dozen Pieces.

1. Cut up fine a bar of the Soap, and put one-ha of it into your boiler with sufficient water to cover your white clothes to be washed, and let the Soap dissolve; then put your clothes in, stirring them, and let them just come to a boil; then pour out clothes and water into a tub and let them soak twenty or thi ty minutes, stirring them round in the tub occasionally to loose the dirt. Sach artices as collars, wristbands or any ar icle very dirty, should be rubbed through the hands a little while soaking in order to thoroughly loosen the dirt before boiling.

2. While your clothes are soaking put the other half of your cut Soap into your boiler, with sufficient clean water to boil, and let it be heating. After your clothes have soaked wring them out well and put into your boiling water, and let boil from 5 to 10 minutes; then rinse, blue and hang out to dry. If the above directions are followed, we will guarantee your clothes clean and white.

3. For your colored and woellee elections was the same

white.

3. For your colored and woollen clothes use the same water you soaked and hoil your white clothes with, only heating it up again, and pour it over your colored and woollen clothes, and let soak the same as your white clothes, also rubbing them through your hands wille soaking, if very dirty. Then rinse in clear water, warm a your hands will bear, and you will thus accomplish a large washing in two hours.

By cutting up a bar of this Soap into two gallons water, and let boil until thoroughly dissolved, and then lesve to cool, you will have two gallons of beautiful SOFT SOAP, as good as Common Soap for general house pur poses.

Commission DR. CHING FUN-A CARD-EDITOR PANDARD:—Through the medium of your paper I want to state the very great good that has been done me by Dr. Ching Fun of this city, nxet door Kwong Lee & Co For 24 years I suffered with neuralgia on the brain, which buffied the skull of three first-class American physicians. Latterly bronehitis attacked my right lung, and my eyes became awfully inflamed. Despairing of ever being cured I placed myself as a last resort in the hands of Dr. Ching Fun, and after five months treatment I am a well man and feel that I cannot sound the eminent Chinese gentleman's praises too loudly, so that all my countrymen similarly affecteed may visit him and find relief. Respectfully,

JOHN HENTON, of Kentucky, U. S. Victoria, 22d Sept. 1870.
